ZIP REPLACEMENT FILTERS

Commonly asked questions

QUALITY - PERFORMANCE - VERIFIED

There are various ZIP-compatible filters in the marketplace.

At Saipol our exclusive ZIP retrofit filter range are (excluding ZIP original filters) the ***only ZIP aftermarket range of filters*** that meet ZIP's own written quality and performance expectations.

SAIPOL's aftermarket range are :

1. **AS3497: 2021 certified**
2. **100% performance claim certified to ASNZ 4348: 1998**
3. **AS/NZ 4020: 2018 certified**
4. **PDS - (Performance Data Sheet) verified**

Saipol's range of ZIP aftermarket filters deliver 99.9% safe cyst free drinking water including Giardia and Cryptosporidium, the same as ZIP.

To our knowledge there are ***no other ZIP retrofit filters*** on the market that carry the above accreditation.

As with ZIP's original filters, SAIPOL's own range of ZIP replacement filters are also NSF 42 and NSF 53 tested and verified to reduce various contaminants from drinking water including Chlorine, Particulates, Lead as well as taste and odour.

Every SAIPOL filter is guaranteed to interfit ZIP filter heads correctly.

Using SAIPOL's aftermarket range also ensures total warranty protection. Our range meet all criteria and afford total protection under both Australian Consumer Law (ACL) and the Australian Designs Act.

SAIPOL's range to Zip replacement filters offers end users outstanding value or money.

Don't sacrifice quality or performance when it comes to your ZIP system

Insist on SAIPOL as your preferred cost effective aftermarket supplier to ZIP replacement filters.

Sincerely
Saipol Pty Ltd
